

Date: March 1st, 2024

Greetings Dr. Brianne Borden,

I am writing to sincerely thank you for being a part of our University of Utah Trumpet Studio this past week. Your multiple days on our campus were a true gift to our students and me. Watching you teach private lesson to our full studio, giving a short performance recital, and masterclass in various events throughout the week was a real treat. Our students benefited from your thorough approach to practice and performance with a wholistic mindset. Your demeanor and approachability made, what can often be a stressful time for student when studying with a different teacher, a very easy experience for them all.

I hope that this letter can serve as a receipt for your time with us and how your impact on our trumpet community will be felt for some time. You are always welcome back to the University of Utah whenever you find yourself in our "neck of the woods." If you ever need any further documentation for your tenure file to justify your time with our program – do not hesitate to reach out.

Sincerely,

James Peyden Shelton, DMA
Associate Professor of Trumpet
Associate Director, School of Music
