Hey Dr. Guy,

I just wanted to send you an email commenting on Dr. Borden and Prof. Deshler. I am in love with their teaching style. The way they've combined our studios into one big one is amazing. I love how well they work together and how well they work with us.

When I was coming to crane for my 1st year last fall, I was worried because so many people were retiring. I can proudly say that this school is better fit with them included.

Thank you,  
Mike Digman
